Course Information

Course Title	Generative AI for Powerpoint
Course Code	C012
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN: 201200696W)
Duration	1 day · 9:30am–5:30pm · 7.5 instructional hours
Mode	Instructor-led classroom or synchronous virtual delivery with individual and small-group activities
Methods	Visual teaching, twelve workplace infographic demonstrations, secure Microsoft 365 training-account onboarding, Copilot prompting, guided PowerPoint practice, data verification, peer coaching and reflection
Equipment	PowerPoint, Excel, internet access, projector, trainer-assigned Microsoft 365 Premium account and Microsoft 365 Copilot infographic access where available

Learning Outcomes

- LO1: Draw insights from infographics to make data-driven decisions.
- LO2: Leverage PowerPoint infographics for articulating data insights to stakeholders.
- LO3: Assess the effectiveness of PowerPoint infographics based on allocated resources in accordance with business goals.

Daily Schedule

Time	Duration	Topic / Activity	Method	Slides
9:30–9:50	20 min	Welcome, trainer profile, course overview and secure Microsoft 365 Premium access	Briefing / visual facilitation	Slides 1–9

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Time	Duration	Topic / Activity	Method	Slides
9:50–10:55	65 min	Topic 1: AI-Assisted Infographic Planning and Data Insights and Activity 1 — Interpret a Statistical KPI Infographic	Visual teaching + demonstration	Slides 10–24
10:55–12:00	65 min	Activity 2 — Design a Comparison Infographic Brief; planning and wireframe review	Guided activity + debrief	Slide 32
12:00–1:15	75 min	Topic 2: Creating PowerPoint Infographics with AI and Activity 3 — Create a Timeline Infographic with Microsoft 365 Copilot	Visual teaching + demonstration	Slides 37–66
1:15–1:45	30 min	Lunch break	Lunch	—
1:45–2:45	60 min	Activity 4 — Create a Process Infographic with Microsoft 365 Copilot; complete Activity 3 outputs	Guided activity + debrief	Slides 66–74
2:45–3:55	70 min	Activity 5 — Create a Comparison Data Story with Copilot and PowerPoint	Guided activity + debrief	Slide 82

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Time	Duration	Topic / Activity	Method	Slides
3:55–4:45	50 min	Activity 6 — Create a Hierarchy Infographic with Microsoft 365 Copilot	Guided activity + debrief	Slide 90
4:45–5:20	35 min	Topic 3: Evaluating and Presenting Infographics for Business Impact, Activity 7 — Create and Review a Stakeholder Mind Map Infographic, and Activity 8 — Create a Resource Scorecard Infographic	Visual teaching + demonstration	Slides 95–115
5:20–5:30	10 min	Course wrap-up, key takeaways and course feedback	Review / reflection	Slides 124–128

Instructional time: 450 minutes (7.5 hours), 9:30am–5:30pm; the single 30-minute lunch is excluded.

Topic-by-Topic Facilitation Notes

Facilitation for all activities: use the deck scenario and visual examples; learners follow the detailed Learner Guide and activity folder. Debrief against the acceptance check, not personal taste.

LU1 — AI-Assisted Infographic Planning and Data Insights · Slide 10

Purpose · Types · Audience · Metrics · Planning · Insight extraction

- An infographic combines concise text, data, shapes, colour, charts and icons to reveal information and relationships.
- Chronology, timeline, process, comparison, statistical, mind map, numerical and hierarchical formats answer different questions.
- A Copilot-first workflow gathers approved sources, cleans and analyses data, extracts candidate insights, then routes verified evidence into visual generation.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Insight extraction distinguishes what the chart shows, what it means, why it matters and what action is justified.

Activity 1 — Interpret a Statistical KPI Infographic · Slide 24

Objective: interpret a statistical KPI infographic, verify its denominators and convert visible patterns into defensible business decisions.

Method: Case study / guided workshop · Duration: 35 minutes · Output: A verified statistical KPI infographic, prompt/source log, annotated insight slide and one-sentence recommendation.

Activity 2 — Design a Comparison Infographic Brief · Slide 32

Objective: turn verified insights into a structured Microsoft 365 Copilot brief for a comparison infographic that controls audience, message, evidence and output.

Method: Case study / guided workshop · Duration: 35 minutes · Output: A structured Copilot prompt, two comparison-infographic directions and one approved PowerPoint wireframe.

LU2 — Creating PowerPoint Infographics with AI · Slide 37

Slide size · Grid · Shapes · Icons · Type · Colour · SmartArt · Charts · AI

- Visual hierarchy uses scale, position, contrast, spacing and alignment to guide the reader through one intended path.
- PowerPoint is the editable refinement layer for AI-generated structure, imagery, text, shapes, SmartArt, native charts and Excel-linked data.
- The Microsoft 365 Copilot app can generate an infographic from a detailed prompt and, where available, approved uploaded content for grounding.
- Every AI-assisted output needs source verification, privacy review, brand control, accessibility checks and editable hand-off.

Activity 3 — Create a Timeline Infographic with Microsoft 365 Copilot · Slide 66

Objective: create a timeline infographic in the Microsoft 365 Copilot app, then preserve hierarchy, editability, brand and evidence in PowerPoint.

Method: Case study / guided workshop · Duration: 40 minutes · Output: An editable five-milestone timeline infographic in PPTX, PDF and JPG.

Activity 4 — Create a Process Infographic with Microsoft 365 Copilot · Slide 74

Objective: use Microsoft 365 Copilot to generate a five-stage process infographic, then rebuild decision-critical labels, shapes, connectors and SmartArt as editable PowerPoint objects.

Method: Case study / guided workshop · Duration: 35 minutes · Output: A Copilot prompt log, editable five-stage process infographic and reusable PowerPoint component slide.

Activity 5 — Create a Comparison Data Story with Copilot and PowerPoint · Slide 82

Objective: use Microsoft 365 Copilot to analyse approved mock Excel data, verify calculations, then create a comparison infographic with a native editable chart in PowerPoint.

Method: Case study / guided workshop · Duration: 45 minutes · Output: A Copilot analysis log, verified formula workbook, comparison infographic and annotated decision slide.

Activity 6 — Create a Hierarchy Infographic with Microsoft 365 Copilot · Slide 90

Objective: generate a source-grounded business-goal hierarchy in Microsoft 365 Copilot and refine it as an accountable editable PowerPoint master.

Method: Case study / guided workshop · Duration: 45 minutes · Output: Two Copilot hierarchy directions, a reviewed editable PowerPoint hierarchy and a prompt/source log.

LU3 — Evaluating and Presenting Infographics for Business Impact · Slide 95

Story · Context · Simplicity · Coaching · Budget · Effectiveness · Improvement

- Effective review separates message clarity, data integrity, visual hierarchy, accessibility, audience fit and business usefulness.
- Coaching uses specific observations, questions and criteria rather than taste-based comments such as 'make it pop'.
- Tool investment is evaluated through capability, licence, learning, production, governance, collaboration and maintenance costs.
- Improvement is evidence-led: gather feedback, prioritise changes, revise the controlled master and retest the intended outcome.

Activity 7 — Create and Review a Stakeholder Mind Map Infographic · Slide 106

Objective: create a stakeholder mind map, give criteria-based feedback and revise it to improve clarity, story and accessibility.

Method: Role play · Duration: 30 minutes · Output: A stakeholder mind map infographic, completed peer-review log, revised PowerPoint and short reflection.

Activity 8 — Create a Resource Scorecard Infographic · Slide 115

Objective: compare infographic-tool investment options and recommend a resource plan using effectiveness and governance criteria.

Method: Case study / guided workshop · Duration: 30 minutes · Output: A weighted resource-scorecard infographic and one-page workflow recommendation.

Resources and Trainer Preparation

- Open the final PPTX and backup PDF; verify links, transitions, presenter display and current version.
- Confirm every Activity-01 to Activity-08 folder contains instructions, checklist, PROMPTS.md, CSV, XLSX and PPTX assets.
- Verify workbook formulas, AI Prompt Lab sheets, Copilot hierarchy scorecard and native chart behaviour; retain all synthetic-data source notes.
- Confirm which Microsoft 365 Copilot infographic and PowerPoint features are available for approved learner accounts; provide the supplied editable PowerPoint fallbacks.
- Inspect Activity 04 generated assets and provenance manifest; remind learners that generated imagery is supporting material, never measured evidence.
- Prepare the course feedback form link for the end-of-day Course Feedback slide.
